Foreword	5
CHAPTER 1	
Quick audit of existing intellectual property.....	7
1. "Checklist"	8
2. "Checklist" analysis.....	10
CHAPTER 2	
Tools for protection – The practical benefits of Luxembourg	13
1. Industrial Property	14
1.1 Patents.....	14
1.1.1 Definition of the right.....	14
<i>Patents and their effects</i>	14
<i>What can be protected?</i>	15
<i>What needs to be done to file a patent application? ...</i>	16
<i>Who does the patent belong to?</i>	16
1.1.2 Protection strategy	17
<i>Filing of a first patent application, conferring</i> <i>a priority date</i>	17
<i>Territorial extension of protection</i>	17
<i>"The international phase" and "the national</i> <i>phase" of the PCT procedure</i>	19
<i>Usefulness of the PCT for applicants</i>	20
<i>Examination and grant procedure</i>	21
1.1.3 SPCs and paediatric extensions.....	24
1.2 Trademarks	25
1.2.1 How to choose a trademark.....	25
<i>Distinctive trademarks</i>	26
<i>Trademarks not already held by third parties</i>	27
1.2.2 Application procedure.....	28
<i>Filing</i>	31
<i>Formal examination</i>	31
<i>Examination for absolute grounds for refusal</i>	31
<i>Publication for the purposes of opposition</i>	31

	<i>Opposition procedure</i>	32
	<i>Registration</i>	33
	<i>International registration</i>	34
1.3	Registered designs	35
1.3.1	Definition of the registered design right	36
1.3.2	Protection strategy	38
2.	Other intellectual property rights	41
2.1	Copyright	42
2.1.1	Terms of protection	42
2.1.2	Scope of protection	44
2.1.3	Copyright exceptions	47
2.2	Software	47
2.2.1	Copyright and/or patents?	48
2.2.2	Terms of protection for software through patent and copyrights	49
2.2.3	Supplementary protection	50
2.3	Database rights	51
2.3.1	Protection by copyright	51
2.3.2	Protection by the " <i>sui generis</i> " right	51
2.4	Orphan drugs	52
2.5	Plant Breeders rights	53
3.	Other tools	54
3.1	Domain names	55
3.2	Confidentiality / Secrecy	55
3.3	Contracts and agreements	56
3.3.1	Contracts of employment	56
3.3.2	Contracts and agreements with third parties	57
	<i>Contracts and agreements with suppliers</i>	57
	<i>Contracts and agreements with partners</i>	59
	<i>Contracts and agreements with clients</i>	61

CHAPTER 3

	Good practice	63
1.	Providing information and increasing awareness	64
1.1	<i>Within a business</i>	64
1.2	<i>For partners</i>	64
2.	Establishing a structure	65
2.1	<i>Definition of the project</i>	65
2.2	<i>Primary research</i>	66
2.3	<i>Development</i>	66
2.4	<i>Industrialisation/implementation</i>	67
2.5	<i>Launching the product or service</i>	68
3.	Monitoring	68
3.1	Competitors	68
3.2	In-house innovations	69

4.	Obtaining protection	69
4.1	<i>Filing</i>	70
4.2	<i>Legal and administrative actions</i>	71
5.	Managing and maintaining rights	73
5.1	<i>Exploitation of rights</i>	73
5.1.1	In-house use.....	73
5.1.2	Third-party use.....	73
Licence	73
Trademark franchising	77
5.2	<i>Portfolio review</i>	78
5.3	<i>Insuring intellectual property rights</i>	80
6.	Obtaining advice	81

CHAPTER 4

	Application to practical situations	83
1.	Launching a new product	84
1.1	<i>Checklist and timescale</i>	84
1.2	<i>Available tools</i>	84
2.	Modifying an existing product	85
2.1	<i>Shape or configuration</i>	85
2.2	<i>Name</i>	86
2.3	<i>Manufacture</i>	87
3.	Providing services	87
4.	Business, trade sign, company name	91
4.1	<i>Protecting names</i>	91
4.1.1	Protecting the name of your company.....	91
4.2	<i>Protecting your logo</i>	93
5.	Software	94
5.1	<i>Development stage</i>	95
5.1.1	In-house development.....	95
5.1.2	Third-party development.....	96
5.1.3	Software and proof of development.....	97
5.2	<i>The operational stage</i>	97
5.2.1	Launch.....	98
5.2.2	Updates, new versions.....	98
6.	New manufacturing/production method	99
6.1	<i>Detection of innovations</i>	99
6.2	<i>Protection</i>	99
7.	Technical collaboration or research and development	100
7.1	<i>Contracts and agreements</i>	100
7.2	<i>Protecting results</i>	101
7.2.1	Secrecy.....	101
7.2.2	Patents.....	102

7.2.3 Registered designs.....	102
8. Special situation of start-ups.....	102

CHAPTER 5

Optimising the value of intellectual property.....	105
1. Ways to optimise value.....	106
1.1 <i>Direct exploitation</i>	106
1.2 <i>Third-party exploitation</i>	107
1.3 <i>Assignment</i>	108
2. Determining the financial value of intellectual property.....	110
2.1 <i>Applicable methods</i>	110
2.1.1 <i>Income approach</i>	111
<i>Determination of income or economic advantages</i>	111
<i>Determining useful economic life</i>	112
2.1.2 <i>Market price comparison</i>	113
2.1.3 <i>Cost analysis</i>	114
2.2 <i>Advice in specific cases</i>	115

CHAPTER 6

Tax Treatment of Intellectual Property in Luxembourg.....	117
1. General Taxation Rules for Resident Companies.....	118
2. Tax Benefits of the Luxembourg IP Box Regime.....	120
2.1 <i>Context and Principles</i>	120
2.2 <i>The regime established by Article 50bis and the grandfathering period</i>	121
2.3 <i>Income from intangibles that may qualify for a partial exemption</i>	122
2.3.1 <i>Types of assets</i>	122
<i>Qualifying and non-qualifying IP rights</i>	122
<i>Complex IP rights</i>	124
2.3.2 <i>The concept of income</i>	124
<i>Legal ownership and economic ownership</i>	124
<i>Own use and use by a third party</i>	125
2.3.3 <i>Income type</i>	125
<i>Royalties</i>	125
<i>Income incorporated in the sale price</i>	126
<i>Capital gains</i>	127
<i>Indemnities</i>	127
2.3.4 <i>The definition of net qualifying income</i>	127
<i>Adjusted net qualifying income</i>	128
<i>Compensated and adjusted net qualifying income</i>	129
2.4 <i>The nexus ratio</i>	129
2.4.1 <i>Introduction</i>	129

2.4.2	Qualifying expenditures.....	130
	<i>Expenditure incurred by the taxpayer.....</i>	131
	<i>Expenditure incurred by a permanent establishment of the taxpayer</i>	131
	<i>Outsourcing of R&D activities to a non-affiliated party</i>	132
	<i>Expenditures incurred as part of general or speculative research</i>	132
2.4.3	Non-qualifying expenditures.....	133
2.4.4	Overall expenditures.....	134
2.5	How Article 50ter LITL regime will apply in practice	134
2.6	Tracking of income and expenditures.....	135
2.6.1	Tracking of income and expenditures per asset.....	136
2.6.2	Tracking income and expenditures per product or service or group of products or services.....	136
2.7	Foreign tax credits.....	138
2.8	Net wealth tax exemption.....	139
2.9	Comparative table: Articles 50bis and 50ter	139
2.10	Conclusion	140
3.	Other Aid and Specific Incentives	141
3.1	Direct aid for research, development and innovation (“RDI”).....	141
3.2	Société Nationale de Crédit et d’Investissement (SNCI).	144
3.3	Tax credit for investment.....	144
4.	Valuation and transfer Pricing.....	145
4.1	Introduction.....	145
4.2	Rules relating to transfer pricing in Luxembourg.....	145
4.3	OECD Guidelines in relation to transfer pricing	149
4.4	Transfer of IP rights	151
4.4.1	Constituent parts of IP rights transfers	151
	<i>Assignment of IP rights</i>	151
	<i>Arm’s length principle</i>	152
4.4.2	Valuation methods.....	152
	<i>Comparable uncontrolled price method</i>	152
	<i>Transactional profit split method.....</i>	153
	<i>Use of valuation techniques</i>	154
4.4.3	Special case of hard-to-value intangibles.....	155
4.4.4	Outsourcing of research and development activities to a foreign permanent establishment and affiliated parties	157
	<i>Assigning research and development activities to a foreign permanent establishment</i>	157
	<i>Allocation of income among members of a group of multinational enterprises.....</i>	158
	<i>Relationship between the control over risk approach and the “Authorized OECD Approach” (“AOA”).....</i>	159
4.5	Exploitation phase.....	161

4.5.1	Use of the IP asset—Concept of the embedded IP....	161
4.5.2	Licensing use of the IP — The royalties.....	161
	<i>Substance</i>	161
	<i>Determination of the royalty rate</i>	162
4.6	<i>Required transfer pricing documentation</i>	162
5.	Value Added Tax.....	163
5.1	<i>General guidelines</i>	163
5.1.1	Taxable persons and reporting obligations.....	163
5.1.2	Application of VAT to various transactions.....	165
5.1.3	Right of deduction.....	166
5.2	<i>The relationship between VAT and IP</i>	166
5.2.1	Purchase of IP rights.....	166
	<i>Purchase from a supplier established in Luxembourg</i>	166
	<i>Purchase from a supplier not established in Luxembourg</i>	167
	<i>Purchase by a non-taxable person</i>	168
5.2.2	Exploitation of IP rights.....	168
	<i>The recipient is established in Luxembourg</i>	169
	<i>The recipient is established in another member state of the European Union</i>	169
	<i>The recipient is an entity liable for VAT</i>	169
	<i>The recipient is not a taxable person</i>	170
	<i>The recipient is established outside the European Union</i>	170
5.2.3	The sale of IP rights.....	170

CHAPTER 7

	Accounting treatment of intellectual property in Luxembourg.....	171
1.	Luxembourg Generally Accepted Accounting Principles (Lux GAAP).....	172
1.1	<i>Definition and classification</i>	172
1.2	<i>Initial account recognition</i>	172
1.3	<i>Measurement rules</i>	173
1.4	<i>Amortization</i>	173
1.5	<i>Income from the exploitation of intangibles: royalties</i>	173
1.6	<i>Income from the sale of the intangible asset</i>	174
2.	IFRS Standards.....	174
2.1	<i>Scope</i>	174
2.2	<i>Initial account recognition</i>	174
2.3	<i>Initial recognition of intangibles generated internally</i>	175
2.4	<i>Assessment after account recognition</i>	176
2.5	<i>Amortization</i>	176
2.6	<i>Recognition of income from the use of the entity's IP rights by others</i>	176
2.7	<i>Sale of an intangible</i>	177
